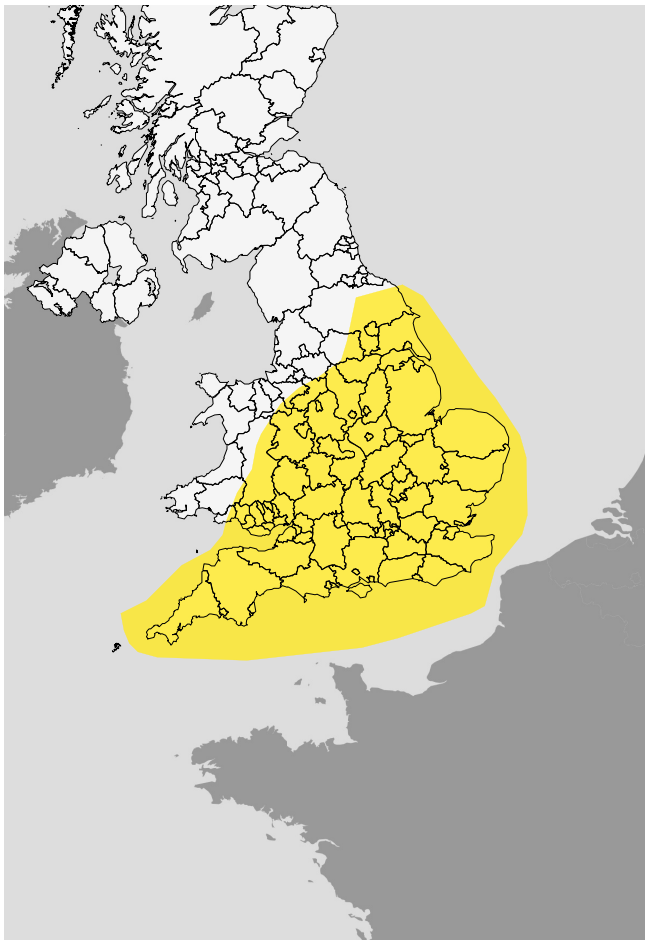
Yellow warning
Wind

Between
18:00 Thu 20 Sep 2018 and
09:00 Fri 21 Sep 2018



Potential for very strong winds on Thursday evening and overnight into Friday morning.

What to expect

- There is a slight chance of some damage to buildings, such as tiles blown from roofs or through falling trees and branches. This could also bring the chance of injuries and danger to life.
- There is a small chance of longer journey times or cancellations as road, rail, air and ferry services are affected
- There is a small chance that some roads and bridges could close
- There is a slight chance that power cuts may occur, with the potential to affect other services, such as mobile phone coverage
- There is a small chance that injuries and danger to life could occur from large waves and beach material being thrown onto sea fronts, coastal roads and properties

18:00 Thu 20 Sep 2018 and
09:00 Fri 21 Sep 2018

Further details

An area of strong winds is likely to develop across parts of Wales and southwest England during Thursday evening before spreading further eastwards across England. The strongest winds are then expected to clear into the North Sea early on Friday. Most likely is that we will see gusts of 45-50 mph in a few spots inland as well as more widely around exposed coasts. However, there is a small chance that stronger winds will develop in some areas with 60-65 mph gusts possible, particularly overnight into Friday across eastern England. The strong winds will accompanied by short-lived outbreaks of very heavy rain in places.

Very low likelihood of medium impacts
